Process & Decision Documentation

Project/Assignment Decisions

I followed the Visual Studio Code + GitHub Starter Guide to get started and set up my account and familiarize myself with the assignment structure. The primary focuses and decisions made to ensure this side quest meets all the requirements.

After creating the animation of randomly drawn blue dots, I decide to add a limitation to the position of the dots so it doesn't appear below the message, in order to increase readability.

GenAI Documentation

Used ChatGPT for technical troubleshooting regarding GitHub Pages deployment. Identified and resolved build issue.
